

DIFFERENTIAL DYNAMIC CONTENT DELIVERY WITH TEXT
DISPLAY IN DEPENDENCE UPON SIMULTANEOUS SPEECH

ABSTRACT

5

Differential dynamic content delivery including providing a session document for a presentation, wherein the session document includes a session grammar and a session structured document; selecting from the session structured document a
10 classified structural element in dependence upon user classifications of a user participant in the presentation; presenting the selected structural element to the user; streaming presentation speech to the user including individual speech from at least one user participating in the presentation; converting the presentation speech to text; detecting whether the presentation speech contains simultaneous individual speech
15 from two or more users; and displaying the text if the presentation speech contains simultaneous individual speech from two or more users.
